HEALTH, SAFETY, ENVIRONMENT & COMMUNITY

2MT Mining Products is committed to having a safe, healthy, and environmentally responsible workplace and providing safe and environmentally responsible systems of work.

2MT is also committed to utilising appropriate systems to meet the needs and expectations of our clients.

To meet our health, safety and environmental commitments, we:

- Ensure safety is our first consideration
- Provide the necessary information, instruction and training, enabling all employees to understand their responsibilities for health, safety, environment and quality
- Identify, assess and control safety, environmental and business risks and hazards by utilising appropriate risk management tools
- Eliminate, mitigate or remediate the environmental impacts of our activities
- Work with our clients to help them achieve their health, safety and environmental objectives and obligations
- Comply with relevant legislation, standards and codes of practice that govern our activities
- Set measurable objectives and targets and regularly monitor and review our performance and implement changes that support continuous improvement
- Maintain, monitor, review, audit and continually improve our management system
- Educate and train in order to continually improve the skills of our people, awareness and knowledge of health, safety, environment and quality issues and practices
- Comply with client requirements when performing work on their site
- Identifying, reporting, investigating and resolving all non-conformances and taking action to prevent reoccurrence

We support our local community!

2MT provides support and sponsorships to several local community organisations and activities, including the RACQ CQ Rescue helicopter.
